

REPORT OF THE ONE DAY PANEL DISCUSSION ON “BUILDING CAREER IN SECURITIES MARKET” AT DES’S NMITD

Date: 13th August 2016

Organized by MMS Department, DES’s NMITD

Venue: DES’s NMITD

Panel discussion was arranged at DES’s NMITD on 13th August 2016 from 2.30 to 5.30 p.m. for MMS students. The focus of the discussion was on “How to build a career in securities market?”, and also creating awareness regarding the various certification which can be undertaken by the MMS first year and MMS second year finance students.

The Objectives of the Panel discussion are as follows:

1. To educate students on how to build career in securities market
2. To appraise the students of what would be the additional certification they would need to join the firm in the research division and to secure a position of financial analyst.

Panel Discussion highlights:

Moderator of the panel, Mr. Narendra Singh, ex- GM, Unit Trust of India, started the discussion by stating that there are more than 7000 Management Graduates passing out from University of Mumbai and a few autonomous institutes ever year and 50% of them opt for finance specialization. He urged the students to read financial daily and keep themselves updated with the current affairs and everything about the business world. National Institute of Securities Markets (*NISM*) is a public trust, established by the Securities and Exchange Board of India (SEBI), the regulator for securities and financial markets.

The aim of National Institute of Securities Markets(*NISM*) is to spread Financial literacy, for which the Dean of *NISM*, Mr. Sukumaran made the introductory speech on “How to build a career in securities market”, and also creating awareness regarding the various certification which can be undertaken by the MMS first year and MMS second year finance students.

Mr. MVS Krishna, AVP, Birla Mutual Fund, advised that the first time investor should look at capital market through the mutual fund and as one goes along then start investing in stocks directly. Evaluation of shares would require you to go through the balance sheets of the selected companies and understand the numbers and find out details of the management, future growth prospects, etc. It also requires one to calculate the various fundamental analysis parameters such PE ratios, EPS (earnings per share), etc.

Further, Mr. Ambrish Mishra, Director, J M Financial Ltd, appraised the students of what would be the additional certification they would need to join the firm in the research division and to become a glamorous position of financial analyst. He also informed that, there were other options these days like financial journalism, wealth management to name a few which are also promising careers.

Number of participants: 58 MMS students

Outcome of the Panel Discussion:

1. The discussants educated students on how to build career in securities market
2. To discussants also appraised the students of what would be the additional certification they would need to join the firm in the research division and to secure a position of financial analyst.

In conclusion, it can be said that the panel discussion achieved its intended purpose to enable the participants to be equipped with knowledge required to build career in securities market.

Discussant given brief about the topic

In conclusion, workshop combined both class room teaching and practical exposure to Mock interviews. The students got an in-depth view on do's and don'ts of resume writing along with the tips to highlight their competencies and achievements on the resume. The mock interviews were taking by Industry experts and acted as learning platform for the students , which gave them confidence and prepared them to face the actual real time interviews with better chances of getting selected.

Session on “Corporate Connect”

REPORT ON THE ONE DAY NATIONAL CONFERENCE ON “TECHNOLOGY AND MANAGEMENT IN ASIAN CENTURY” AT DES’S NMITD

Date: 25th February 2017

Organized by MCA and MMS Department, DES’s NMITD

Venue: DES’s NMITD

Background:

The theme of the conference is on Advanced Computing in Asian Century and Managing Business in the Asian Century. Advance Computing enlightens the power of integrated software, systems and support. It’s about empowering businesses, organisations and users to achieve more. This allows to understand needs of client, committing to the task and delivering the best solution through information technology to client and society.

The Asian Century scenario extends Asia’s past success into the future, putting it on the cusp of a historic transformation. It assumes that Asian economies can maintain their momentum for another 40 years and adapt to the shifting global economic and technological environment by continually recreating their comparative advantages. World Bank estimate as regards Asia’s GDP (at market exchange rates) would increase from \$17 trillion in 2010 to \$174 trillion in 2050, or half of global GDP, similar to its share of the global population. Seven economies would lead Asia’s march to prosperity, including India. The goal of the conference is to stimulate and disseminate new research on the above mentioned theme.

Brief Introduction about the conference:
