Guest Lecture on Career Guidance in Data Science

Venue: NMITD E-15 Classroom

Date: 18 July 2019

Resource Person: Mr Shailesh Mallya, Sibia Analytics and Consulting (Business Head)

Targetted Audience: MCA SEM V

No of Participants: 45 MCA Students

Program Objectives: Orienting MCA and MMS-IT students towards IT industry expectations

MCA department of Deccan Education Society's Navinchandra Mehta Institute of Technology and Development [NMITD] organized a guest lecture on Career Guidance and Skill-Sets for Data Science Domain on Thursday 18 July 2019 between 3:30 PM to 4:30 PM in class E15 for the MCA semester V students. Around 45 students from MCA Semester V attended the session.

The speaker was Mr. Shailesh Mallya, Business Head at Sibia **Analytics and Consulting** having 18+ years of experience in diverse roles from Business Analyst, Artificial Intelligence Marketing and Engineering. The guest speaker was greeted with a warm welcome by Mrs. Apeksha Gaje who introduced the students briefly about the speaker.

The session was held with the intent of enlightening the students about the career opportunities in various fields like Data Analysis, IoT, Artificial Intelligence and many more. He also spoke about his own career and how he took efforts to be a successful person in his life. He guided the students about the industry standards and also spoke about what the industries expects from the MCA Grads. The presentation included the knowledge of various sectors where the job opportunities are high and booming. Also the speaker enlightened the view of what the future expects, wherein he advised every candidate to be aware of various knowledge forums and sites that can boost the knowledge and henceforth can develop the skill sets.

The presentation and interaction of the speaker was very effective wherein he showed many related visuals which gave more clarity. The session was highly informative and interactive where the students interacted enthusiastically and Mr. Mallya answered all the queries and cleared their doubts with patience. The session ended with a token of appreciation handed by Mrs. Apeksha Gaje and Mr. Pratik Desai to Mr. Shailesh Mallya. The students left the classroom with a sense of pride, knowledge and motivation knowing what they need to do for fulfilling their career objectives and with a clear view on employment opportunities in IT sector.

One Day Workshop on Game Development with C++

20th July 2019

Resource Person:
Mr. Padmanabh Vyas
Game Dev Engineer,
(NET4U Online P. Ltd)

Gaming industry is emerging as an interesting niche area for software professionals. Almost everyone these days carry smart phones powered with at least dual-core CPUs and concomitant graphics capabilities. Such was previously found only on laptops and desktop PCs. As a result there are many interesting gaming apps developed for such android/ios based smart-phones, that people can play on the go. Thus mobile gaming is coming up as an extension of PC gaming creating a demand for mobile game developers.

To give head-start to MCA students interested in this niche area of software development, by familiarizing them on the skills required to become a game developer, NMITD organized a one-day workshop on "Game Development using C++". The expert resource person, Mr Padmanabh Vyas is Sr. Game Development Engineer at NET4U Online Pvt Ltd and is himself an Ex-NMITDian having graduated as MCA in 2015.

The conceptual and hands-on sessions was conducted on the following:

- Basic of C++ required for game development
- What is game development
- What is game framework
- Multiplatform Development
- Planning a game project
- What is Cocos2d-X
- What is Cocos Creator
- Difference between Creator and Cocos project
- Installation guide
- Intro to components of development
- Director, Scenes and Scene Graph, Nodes etc.
- Small Demo Game

Around 60 MCA Sem V students participated in the workshop.

“Skilling” Oneself for IT – Industry Expectations from Freshers

Venue: NMITD E-15 Classroom

Date: 23 August 2019

Resource Person: Mr Dhananjay Prajapati, Zeus Learning (Director of Web Technologies)

Targetted Audience: MCA SEM V and MMS – IT Students

Program Objectives: Orienting MCA and MMS-IT students towards IT industry expectations

MCA department of Deccan Education Society's Navinchandra Mehta Institute of Technology and Development [NMITD] organized a guest lecture on Problem-Solving and Other Skillsets required for various job roles in Information Technology on Friday 23rd August 2019 between 3:00 PM to 5:00 PM in class E15 for the MCA SEM V and MMS-IT students. Around 45 students from MCA SEM-V and 7 students from MMS-IT attended the session.

The speaker was Mr. Dhananjay Prajapati, Director of Web Technologies at Zeus learning Pvt Ltd, having 15+ years of experience in diverse roles as Technology Manager, Product Development in E-Learning domain, and Training and Mentoring of software developers.

The guest speaker was greeted with a warm welcome by Prof Mr. Pratik A. Desai who also introduced the guest speaker to students.

The session was held with the intent of enlightening the students about the skill-sets required to do well in ever changing IT field. He spoke about how the fundamental subject knowledge and strong conceptual foundations in core subjects such as Programming, Networking, Database Systems, Computer Graphics etc helps students to improve their critical thinking abilities. Even though the technology stack keeps on changing the mastery of these fundamental subjects continues to help in learning new things.

He then explored the current IT-Job landscape to introduce students to various jobs available today in IT for beginners. He described and discussed the skill-sets required for the following IT-Job Roles for beginners/freshers: 1) Frontend Programmer, 2) Backend Programmer, 3) Database Developer, 4) Full Stack Developer, 5) DevOps, 6) UX/UI, 7) Manual Tester, 8) Automation Tester, and 9) Load Tester. He elucidated and clarified the specific particular technologies to be mastered and skills required for each of these roles.

Tel No: 022- 62764582/83/84
Approved by AICTE, DTE Affiliated to University of Mumbai
NAAC Accredited "B++"

When it comes to general skill-sets he categorized them into seven levels: 1) Problem Solving Skills, 2) Logical Skills, 3) Quick Reference and Implementation Skills, 4) Estimation Skills, 5) Communication Skills, 6) Design Skills and 7) S/W Testing Skills. He urged students to develop these skills by implementing projects and even related each of these skills to core subjects in MCA curriculum. For instance good fundamental knowledge of Software Engineering subject helps in improving Estimation Skills. Understanding of Organization Behavior (previously a part of MCA curriculum) helps improve Communication Skills, and knowledge of Object Oriented Programming and User Interfaces /Computer Graphics helps in honing design skills. He throughout emphasized the importance of sticking to the basics and implementing one's own small projects to concretize the learning of various skills.

The session was highly informative and interactive where the students interacted enthusiastically and Mr. Dhananjay Prajapati answered all the queries and clarified their doubts with patience. The students left the classroom with a sense of motivation, knowing what the importance of fundamentals in fulfilling their career objectives in the ever-changing technology landscape in the Information Technology world.

Financial Education and Investor Awareness Workshop

(Conducted On: 29th August 2019)

Date & Time: 29th August 2020, 10 am to 1 pm

Organized By: NMITD jointly with JSKB

Resource Person(s): Mr. Manoh Sathe, VP, NSDL; Mr. Nilesh Shinde, Manager NISM; Mr Aman Chawla, CEO, ACBM Global Academy; & Mr. Christopher Mathew, Ex Country Head, Standard Chartered Bank

Venue: NMITD E-15 Classroom

Targeted Audience: Mumbai University Faculty Members,

As we know that, most of the Teachers are aware of physical wellness and are doing regular walking or some exercise and for mental wellness practicing meditation. Financial Wellness is equally important as it will assist the teachers in identifying their short term, medium term and long term financial goal and do the planning accordingly. They need to be aware of the different financial instruments and the risks and the returns associated with it, before investing. Further Academicians are important community, who not only teach but also impact and influence the young minds and hence can help in spreading Financial Education and Investor Awareness among the students.

With this objective, this workshop was jointly hosted by Jayashree Sharadchandra Kothari Business School and Navinchandra Mehta Institute of Technology and Development at the DES Campus on 29th September 2019. More than 52 Faculty Members of Under Graduate and Post Graduate of University of Mumbai participated in this workshop.

We were fortunate to have the following resource persons;

1. Mr. Manoj Sathe, Vice President, NSDL who spoke about the various aspects of Financial Wellness and in a humorous way cited some experiences from his life as an investor.
2. Mr. Nilesh Shinde, Manager, NISM who informed the August gathering about the importance of certification for securities market professionals and how the teachers can influence the students for taking these courses and becoming financial independent.
3. Mr. Aman Chawla, CEO, ACBM Global Academy spoke about the various Financial Goals which can be set by the Individuals and how they have to start their retirement planning from the day they get their offer letter.
4. Mr. Christopher Mathew, Ex Country Head, Standard Chartered Bank spoke about investing in mutual fund as a starter and how to track and identify the best possible mutual fund investment, depending on your financial goal.

We had also organized Careers in Securities Market and Certification Lecture at Kirti College and NMITD and spoke to more than 350 students of [B.Com](#), [B.Com](#) (Accounting and Finance) BMS and MMS students for NISM certification and the opportunities they would have after doing this courses. Dr. Rasika Mallya, Director, Jayashri Sharadchandra Kothari Business School also spoke about the value added certification that these students can do in advance excel. Prof. Dixit Kothari and Prof. Priyanka Gina Gowda were instrumental in making this event a great success. Both the activities were coordinated by Dr. Anita P Bobade, Associate Professor (Finance).

We plan to organize more such workshops on particular financial assets in the coming future as a part of continuing education

Workshop Report

National Short-Term Training on IoT by

DES's Navinchandra Mehta Institute of Technology and Development

in association with NSS of IIT Roorkee & EduxLabs

Deccan Education Society's Navinchandra Mehta Institute of Technology and Development, Mumbai in association with NSS of IIT Roorkee and EduxLab conducted a One Week National Short-Term Training Program on Internet of Things (IoT) from 16th September, 2019 to 20th September, 2019. The total 36 participants were participated in this workshop which includes 12 faculty members (8 from DES's NMITD and 4 outside colleges), 24 post graduate students (20 DES's NMITD's MCA students, 1 MMS IT, 3 JSK Business School).

The workshop commenced with welcome note by Dr. Rasika Mallya (Associate Director) followed by welcome of the resource person Mr. Amit Mishra and participant.

Objective of the IoT Training

The training introduced basic & advanced concepts and methodologies of IoT to design, build and deploy IoT solutions. It also used various technologies and protocols for communication including new generation IoT-friendly applications and physical layer protocols. The training covered popular, service-rich cloud platforms and focused on how to build and deploy IoT solutions.

Following topics covered during the Workshop:

Day 1:

Theory

- Introduction to Internet of Things (IoT), what IoT means and how it is related to Cloud computing concepts.
- Brief introduction of the architecture and the components needed for the IoT projects (Like sensors, processors, storage (local, cloud), Network etc.).
- Introduction to Arduino software and installation and programming basics.
- Introduction to NodeMCU and IR sensor.

Practical

- Blinking of LED using NodeMCU and IR sensors

Tel No: 022- 62764582/83/84

Approved by AICTE, DTE Affiliated to University of Mumbai
NAAC Accredited "B++"

Day 2:

Theory

- Introduction to DHT11 Sensor.
- Working with DHT11 sensors to detect the Temperature and Humidity.
- Introduction to Thing Speak.

Practical

- Interfacing the DHT11 Humidity Sensor with ESP8266 (NodeMCU) and ThingSpeak and monitor the data.

Day 3:

Theory

- Introduction to Relay Motor
- Introduction to AdaFruit and Node-Red

Practical

- Working with IR sensor and the Relay motor for controlling Bulb
- Controlling bulb using AdaFruit (Toggle Button).

Day 4:

Theory

- More about Node-Red

Practical

- Sending mail through Node-Red using sensors (Intrusion detection system).
- Sending temperature updates through mail using DHT11 sensor and Node-Red.
- Downloading and Installing the Blynk app on mobile.
- Controlling the intensity of LED using AdaFruit .

Day 5:

Theory

- Downloading and Installing MQTT-Client app on mobile.

Practical

- Programming with Python to develop a chat application using MQTT-Client app.
- Use of Blynk app for reading Temperature and Humidity sensed by the DHT11 sensor.

Feedback & Suggestions:

The participants were given feedback forms at the end of the training sessions. We received a good feedback and suggestions which we adhere to practice in near future. Participants showed willingness to attend more such workshops at DES's NMITD Institute in future.

Workshop on Anti-Corruption Laws Organized on 31st Oct 2019
(as part of observing Vigilance Awareness Week 2019)

Venue: NMITD E-15 Classroom

Targeted Audience: MCA/MMS Students and Faculty Members

Number of Participants: 59

As part of Vigilance Awareness Week 2019 that was observed this year from 28th October to 2nd November, we at Navinchandra Mehta Institute of Technology and Development (NMITD), in association with Anti-Corruption Bureau (ACB, Maharashtra) organized a one-day workshop to create awareness among students and faculty members regarding the existing Anti-Corruption Laws and their scope and applicability as related to public servants and govt officers involved in various sectors of state and central level departments.

Mr. L. M. Karde, Senior Advocate with more than 55 years' experience in dealing with legal issues related to corruption matters and Mr M. N. Muguttrao, Assistant Commissioner of Police, ACB Mumbai Range were the expert resource persons for the session.

Advocate Karde shed light on the evolution of Anti-Corruption Laws in India right from the pre-independence era 'Prevention of Corruption Act 1947' (which came in force on 11 March 1947), to the Prevention of Corruption Act 1988 (it made some punishments more stringent) upto the most recent 'Prevention of Corruption Amendment Act 2018 (which came in force on 26th July 2018). The session was conducted in a lively and interactive manner. From his vast experience Advocate Karde shared interesting real anti-corruption cases, to highlight the pitfalls involved in proving the case, the existing conviction rates, the various loop-holes that are exploited for aquital and other matters. He emphasized the role of three critical factors in such cases: 1) the involvement of investigating officer 2) the nature of judge (he characterized judges into three broad categories as: punishing judges, acquitting judges appreciating judges) and 3) the public prosecutor running the case.

Mr M. N. Muguttrao, Asst Commr of Police ACB, shared with the audiences the nature of working of ACB Maharashtra in handling the corruption cases right from when they receive such complaints to the point of conviction. He explained the protocol followed to verify and validate the claims before filing the case to avoid unnecessary harrasment due to possibility of false cases filed with the intention to malign someone. The various contact channels and social media details for contacting ACB for filing corruption complaints were shared with the participants.

Introduction and Vote-of-Thanks was delivered by Ms Renuka Sawant, Asst. Prof, MMS Department. Together around 60 participants including MCA/MMS students and faculty members attended the workshop.

(conducted on 31st Oct 2019)

Seminar on Swami Vivekanda Organized on 17th January 2020 (on occasion of National Youth Day 2020)

Venue: NMITD E-15 Classroom

Targeted Audience: MCA/MMS Students and Faculty Members

Number of Participants: 70 students and 5 faculty members

National Youth Day is observed on the birth anniversary of Swami Vivekananda every year on 12th January. This year on 17th January 2020, to mark the occasion of 157th Birth Anniversary of Swami Vivekanda, a one day seminar was organized at Navinchandra Mehta Institute of Technology and Development (NMITD) for its MCA and MMS students. The eminent resource persons were Ms. Sujata Dalvi and Mrs Swati Kulkarni from Vivekanda Kendra, Dadar.

Ms Sujata Dalvi is a jivanvrati at Vivekanda Kendra's Kanyakumari Shakha. Whereas Mrs. Swati Kularni is an accomplished Yoga instructor training youth in Yoga across Maharashtra through Vivekanda Kendra.

Both MCA and MMS students participated with vigor and engagement throughout the interactive seminar. The thoughts and ideals of Swami Vivekananda, his history and contributions to India and World Religions was uncovered. The relevance of Swamiji's thoughts particularly so in today's troubled times was felt by each and every-one who attended this seminar.

Around 70 MCA and MMS students and 5 faculty members participated in the seminar.

The introduction of the resource persons was given by Mr. Pratik A. Desai, Asst. Professor, MCA Dept at NMITD. Vote of Thanks was offered by Mr. Girish Jadhav, Asst. Prof., MMS Dept.

**Pics : 1) Ms. Sujata Dalvi from Vivekanda Kendra addressing students

Seminar on Entrepreneurship Skills Development at NMITD

(on 24th January 2020)

Venue: NMITD E-15 Classroom

Targeted Audience: MCA/MMS Students

Resource Person: Mr. Vivek Ranavare

Number of Participants: 100 MCA/MMS Students

Date & Time: 24th January 2020 at 2:30 to 4:40 pm

Des 's NMITD Institute had conducted a very enlightening seminar on building Entrepreneurship skills in students . This seminar was conducted by Mr. Vivek Ranaware _ . This seminar started with a brief introduction of Mr. Vivek Ranaware . Mr.Vivek Ranaware briefed us about his educational qualifications and his experience about entrepreneurship trainings which he has conducted so far . He was open to questions and explained everything about entrepreneurship in detail to us .

Mr.Vivek Ranaware gave us valuable lessons of entrepreneurship through interesting stories . The first humorous story which he told us was – Imagine there is a vessel of **22 kg gold** outside your house (*veranda*) . What would you do in such a situation ? Would you ever leave your house ? Obviously no, because that gold would bring you so much money ad make you rich . So similarly make yourself so much skilled and knowledgeable that wherever you go people nurture you in their organization and pay you handsome salary . You yourself be that vessel of 22 kg gold . Precious and valuable .

Mr.Vivek Ranaware told that there are **75%** of the population in this world who don't know their goals in life . There is another chunk of **22%** on this planet who know their goals but don't write their goals on a piece of paper . There is another **3%** who formulate goals for themselves and write them in their diaries . Amongst these 3 categories of people – the first 75 % people are total failures because they don't know which direction to go in life . The next 75 % work hard in their life but lack dedication and the rare but passionate are those 3% who write their goals. Hence , it is very important for us to formulate our goals in life and also write them down . For these 3 % talented people there will be no competition because they themselves are ‘ **The Competition** ’ in the market .

Enthusiastic and optimistic Mr.Vivek Ranaware also revealed to us the immense power of our ‘ **Subconscious Mind** ’ . Anything which you will tell to your subconscious mind will start becoming true very soon . Start telling yourself what you expect to become rather than pitying yourself for the skills you lack . In a few days , you will see the change . Try the 21 days challenge and you will become what you wish to be . For instance , say “ **I am Knowledgeable** ” , “ I am open and receptive to all the wealth life offers me ” , “Today and everyday my thirst for learning is alive and well in me ” .

The few more important things which .vivek ranaware sir told us were that ‘ **Never Try** ’ for anything in your life . There are two options either you do it or you don’t . So never try. You should ‘ **Dream Big** ’ . Why do you want to spend your life earning a 4 or 5 digit salary ? Aim for a 9 digit salary . Do smart work , acquire the required skills and you will definitely succeed . Don’t waste your time on social media. Social media is becoming an addiction for today ’s youth . Have a Linkedin profile rather than having an Instagram or facebook profile .

We can conclude by saying that all the students felt very lucky to have got an opportunity to attend such a wonderful seminar conducted by vivek ranaware sir who is an Expert in corporate trainings . The seminar was an eye- opener for all of us . We all felt very energized and motivated after the seminar and have already started to ‘ **Dream Big** ’ ..

**National Symposium on IPR: A Prerequisite in Higher Education & Research
(Organized in association with Kirti College IQAC Cell)**

Date: 15th February 2020,

Time: 9 am to 4 pm (including lunch and tea break)

Venue: Kirti College 0.8 Classroom

Organized by: NMITD IQAC cell in association with Kirti College IQAC cell

Targeted Audience: DES Mumbai Campus Students and Faculty Members

Number of Participants: 50 students and 15 faculty members

Resource Persons: Dr. Dinesh Patil (Dy. Controller of Patents & Designs), Dr Bhushan Chaudhari (Member Secretary IPR Cell, KBCNMU, Jalgaon) and Ms. Sandhya Kothari (Asst. Controller of Patents & Designs)

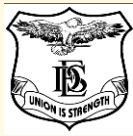

Program Objectives:

- To motivate and inculcate the culture of creativity and innovations in academics and research scholars with respect to provisions of IPR
- To provide insights on the patent regime in india and the filling procedures for patents and copyrights.
- To disseminate information about copyrights framework of protective rights of the creator and the purview of what can be copyrighted.
- To suggest pathways to build a culture of creativity, innovation and industry-academia collaborations towards intellectual property.

On 15th February 2020 a One Day National Symposium on Intellectual Property Rights was organized by NMITD in association with Kirti College IQAC Cell. The workshop was conducted in Kirti College premises.

There were three technical sessions in the workshop.

1. **Property Rights In India: Rules and Regulations:** In this first session Dr. Dinesh P. Patil delivered a talk which covered the laws and regulations related to Intellectual Property Rights In India. He covered almost all the facets of IPR such as geographical indicator, patent, copyrights, trademarks, industrial designs, traditional knowledge and their rules and their importance globally.
2. **Why to File Patent?:** This second session was delivered by Dr. Bhushan Chaudhari. He described about tangible and intangible properties. He emphasized that "the driving force behind the economic development is the nations' innovative input and innovative output of which the ratio is known as innovation index." He concluded his session by saying that "patents can generate wealth and bring power to the individual, organization and at large the nation and hence, one needs to think of patents to file."
